

Parijma is one of the oldest & pioneer in Pediatric neurology & Neuro - rehabilitation with a focus on multi -disciplinary rehabilitation so as to obtain best results we have branches in Bengaluru & Mangaluru

WHAT MAKES PARIJMA UNIQUE ?

1. Multi-disciplinary Neuro rehabilitation under one roof

Children with neurologic disorders have more than one disability, hence our team of Pediatric Neurologist, Physiotherapist, Speech therapist, Psychologist and Occupational therapist evaluate each child & later a customized treatment protocol is designed for each child depending on their disability

2. State of art equipment

We provide standardised Neuro-rehabilitation equipment, in addition to our own custom designed equipment

OUR FACILITIES

INFANT STIMULATION

Parijma is only centre in Dakshina Kannada which has this facility this is designed to improve the mental development of infants and toddlers who have developmental delay, early recognition & appropriate intervention makes the difference to these babies.

VISUAL STIMULATION

Parijma is again the only centre to specialise in this therapy in Dakshina Kannada. This is key therapy which helps in improving the focus & fixation of developmental delayed children. The faster the child is able to visualise & understand, faster is her/ his overall improvement.

OUR FACILITIES

PHYSIOTHERAPY

Parijma has one of the largest areas of exclusive Pediatric physiotherapy in the private sector with over latest & custom designed equipment. Through this therapy children have better & faster chances of improvement.

OCCUPATIONAL THERAPY

Parijma has one of the most well equipped Occupational therapy department in the private sector. It consists of local, imported customised equipment's & specially trained therapist for this purpose.

SPEECH THERAPY

Speech therapy has been one of the chief specialities of Parijma, since several years we use all standard many innovative therapies & techniques to improve communication in speech developed children.

We Also have Group therapy, EEG facility & Remedial/ Behavioural Therapy
